Increase your expertise and skill to assist couples in **Unraveling the "Survival Knot."** The "**Survival Knot**" is the most treacherous territory of a couple's relationship. It is the unconscious, and yet essential agenda, embedded in the "**problem**" with which they appear in the office of the therapist.

Witness & learn Hedy's step-by-step, systematic roadmap to "**unravel**" the relational impasse, where one person's anguished desperation meets the other person's dogged resistance, and vice versa. Learn how **EcCT** liberates the growth potential of the relationship.

This highly experiential Clinical Training is the **crystallization** of Hedy's 40 years of work as a psychotherapist, as well as the integration of everything that she learned in her "**clinical couples lab**" established 25 years ago, and in her own "**private living lab**" with her husband Yumi, established 53 years ago.

Approved for **21 CEUs** by national boards, the training is presented by the **Tikkun Learning Center**, and **Virginia Institute of Pastoral Care**, and instructed by **Hedy Schleifer, MA, LMHC**.
